Notes:

The model selected from approved framework will determine how courses are offered locally. ENG-025 can be used as a pre-req or co-req course. ENG-045 can be used as a co-req course. _See page 2 for visual of the course options within the approved framework._

*Proposed local direct placement option for ENG-110 – If local direct placement option for ENG-110 is approved, colleges who choose to allow direct placement for ENG 110 would not require ENG-025 or ENG-045 for students enrolling in ENG-110.

**Completion of ENG-110 would allow direct placement into ENG-111.
