Notes:

The model selected from approved framework will determine how courses are offered locally. MAT-025 and MAT-035 can be used as a pre-req or co-req course. MAT-045 can be used as a co-req course. See pages 3 and 4 for visuals of the course options within the approved framework.

**Proposed local direct placement option for MAT-110 – If local direct placement option for MAT-110 is approved, colleges who choose to allow direct placement for MAT-110 would not require MAT-025, MAT-035 or MAT-045 for students enrolling in MAT-110.*

***Completion of MAT-110 would allow direct placement into another gateway MAT course.*

MAT 143/152/110 Models

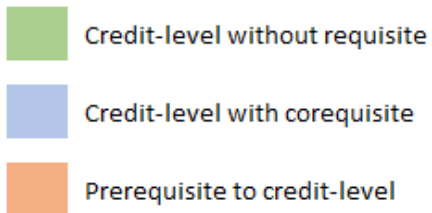

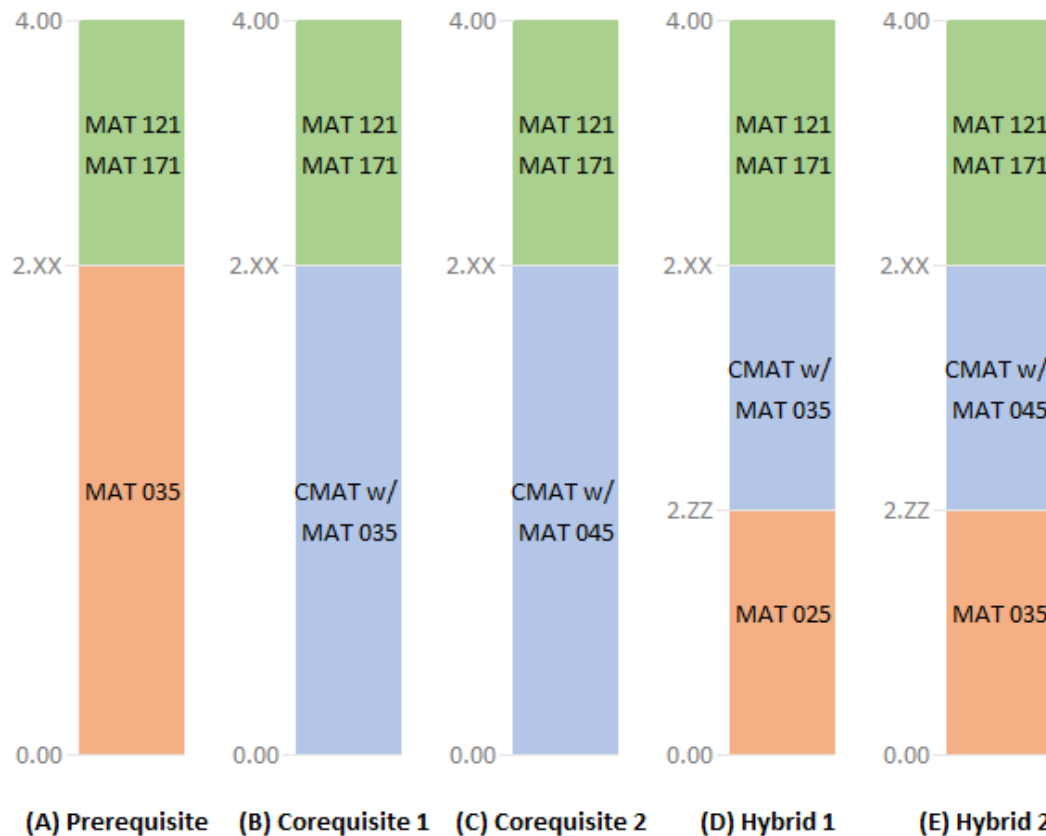

(A) Prerequisite (B) Corequisite 1 (C) Corequisite 2 (D) Hybrid

Note: CMAT = Credit-Level Math (MAT 143, 152, or 110)

Note: 2.XX represents GPA threshold for credit-level without requisite and 2.ZZ represents the corequisite threshold for a hybrid

MAT 121/171 Models

Note: CMAT = Credit-Level Math (MAT 121 or 171)

Note: 2.XX represents GPA threshold for credit-level without requisite and 2.ZZ represents the corequisite threshold for a hybrid model
